

Maker Learning

Hands-on, creative, and design-centered learning are elements of “maker learning.” Maker learning has the power to:

- Increase access, interest, and skills in STEM;
- Promote social and emotional learning by building empathy and perspective-taking abilities through user-centered design;
- Personalize, engage, and facilitate student voice and choice; and
- Catalyze interdisciplinary experiences and make curriculum more relevant.

Digital Promise offers a suite of professional learning and strategic planning services to help schools and districts build a culture of learning-by-making. Digital Promise consultants work with school teams and district leaders to integrate maker learning in six key areas: vision, program, people, materials, community engagement, and assessing and improving.

How We Engage

We will help you develop a plan to meet your district’s needs by engaging with administrators, educators, parents, and community advocates.

Solution

Description

On-site strategic planning

Work with a team of administrators and/or lead teachers to gain a deeper understanding of Maker Learning using the Maker Learning Leadership Framework, create a long-range professional learning plan and ensure it complements district goals, and develop a plan for implementation.

On-site workshops

Educators will be guided through Maker Learning activities and be ready to integrate maker-centered approaches in their classroom.

Institutes

Three day immersive event that provides participants with a hands-on and collaborative experience.

On-site implementation support

Work with districts on-site to plan, implement, and improve your maker learning program through:

- Tool/equipment training sessions
- Classroom observations
- One-on-one sessions
- Group meetings
- Model lessons
- Community maker events

Ongoing virtual support

Provide ongoing support through immediate, customized support to fit teachers’ needs via video conferencing, email, phone, etc.

About Digital Promise Professional Services

Digital Promise Professional Services leverages the resources and networks of Digital Promise to provide custom support, content and experience that advances learning. Our team of educators combine lessons learned through years of experience to help personalize professional learning, and engage students in powerful ways. Become a part of the Digital Promise mission to accelerate innovation in education.
