Looking for Powerful Learning

Powerful Learning is personal and accessible, authentic and challenging, collaborative and connected, and inquisitive and reflective. By designing learning experiences that reflect these principles, educators can deeply engage their students in learning and ensure the purposeful use of technology.

Use this tool during learning walks to better understand and offer feedback on a learning experience. Use the I saw, I appreciate, I wonder protocol to record observations, thoughts, and questions. Use the "look fors" and sentence frames as guides, and feel free to go beyond what's there.

Inquisitive & Reflection	 driving the questioning recalling, reflecting, and synthesizing reflecting on their learning process Other evidence: 	How the lesson How students How you	What would it look like if? How else might you? What impact do you think? Why did you decide?

Questions for Students

What to ask?	What to assess
 What are you learning? How are you learning it? Why is this important to you? 	 Do they describe how they've made their own choices, not only choices they were given? Can they express how the learning is important to them, without simply repeating the goals of the teacher?
 Why is this important outside of the classroom? What do you find challenging? What do you do if you get stuck? 	 Can students articulate the real-world purpose for their learning? Does their narrative reflect an appropriate level of challenge and a growth mindset?
 Who have you worked with as you've learned this? How are you going to share your work and with who 	 Are the students working towards a public goal om? beyond the satisfaction of a teacher or a grade? Do they share discussions they have had about this lesson with peers and others in the community?
 What questions are you trying to answer? Who came up with those questions? How is this like something you learned earlier? What have you learned about yourself and the world through this lesson? 	 Do they describe how they've contributed to the questions guiding the learning? Are students able to make connections between new and prior learning? Can they express insights into their learning process, their personal learning goals, and the
	 What are you learning? How are you learning it? Why is this important to you? Why is this important outside of the classroom? What do you find challenging? What do you do if you get stuck?
