# B.O.A.T. for Building Ideas

We can use computational thinking
to build ideas and knowledge.
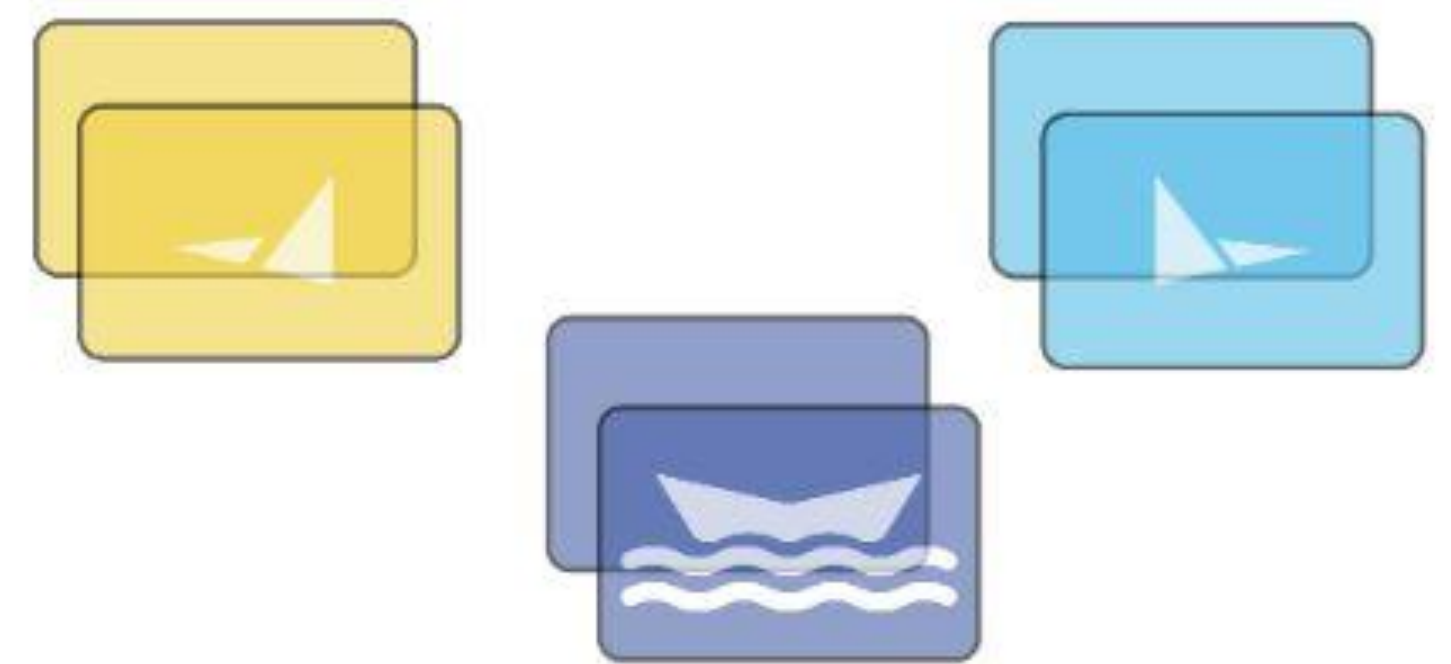

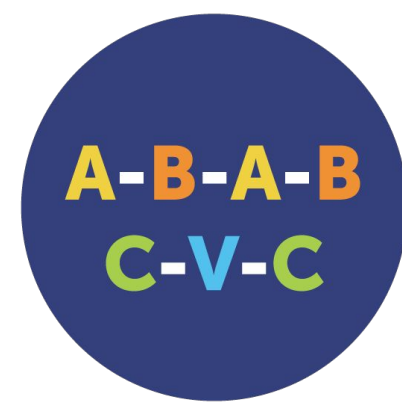

Brainstorm

↳ Write down all ideas that come to mind
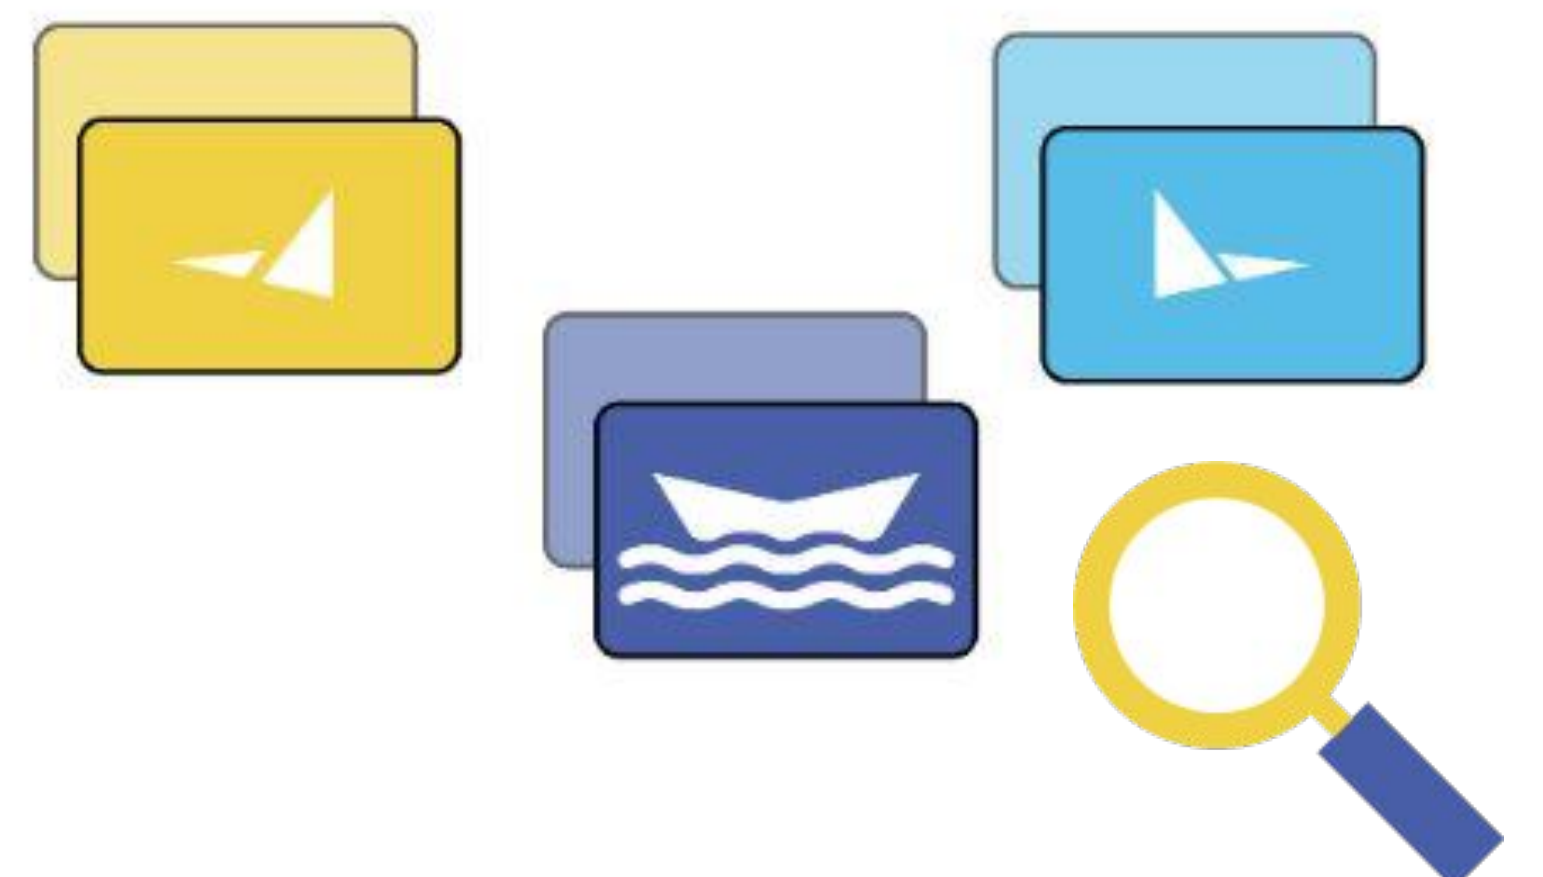

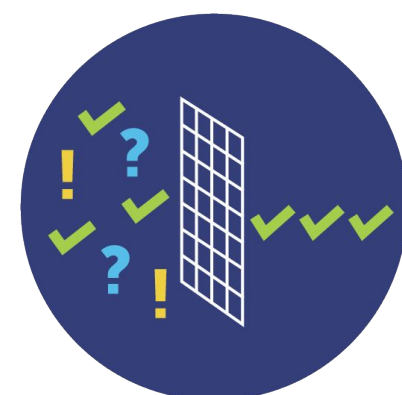

Organize

A-B-A-B
C-V-C

↳ Look for patterns and group ideas based on similarities
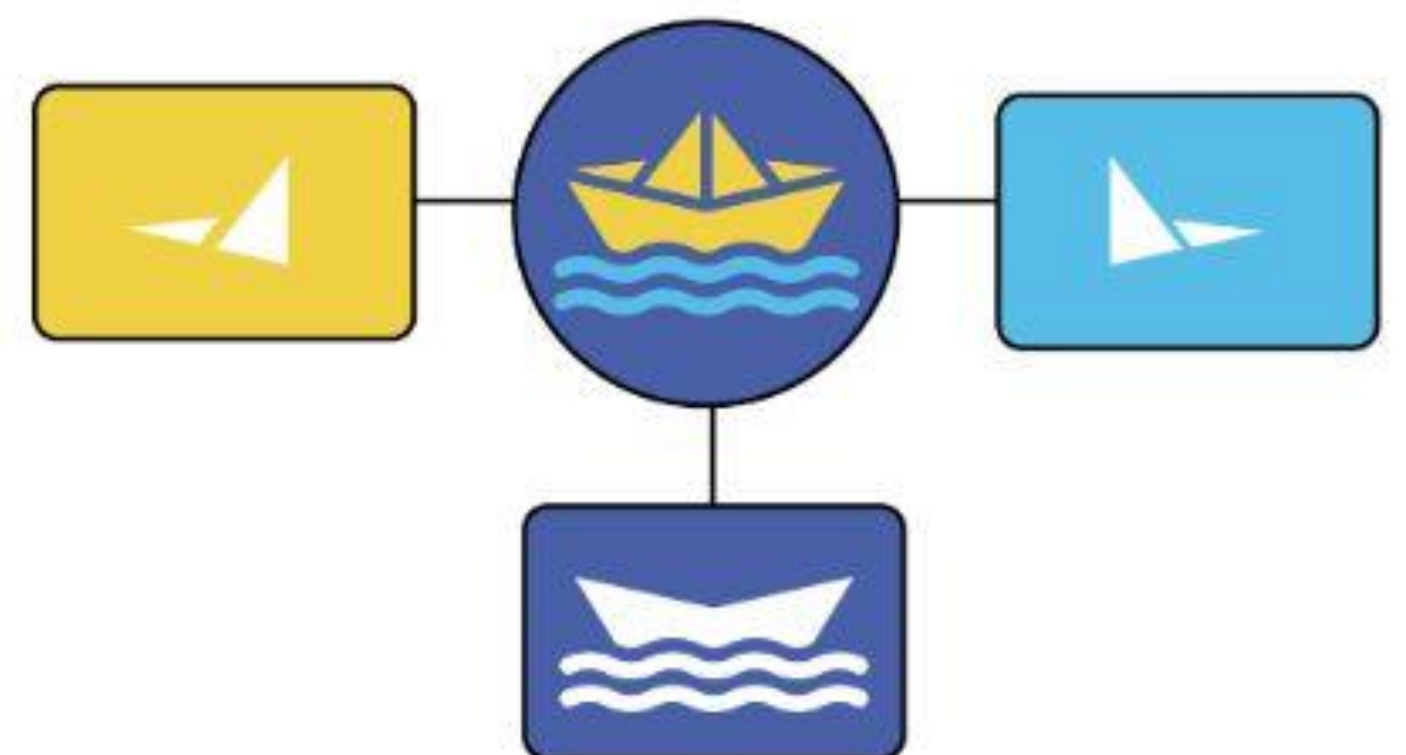

Abstract

↳ Identify the most important concept from each grouping

Transform

↳ Connect concepts together with old and new knowledge

When can this help with reading and writing?
